

DRAFT
FHM:kmg (2-1-67)

1. In consonance with Agency policy to simplify and reduce administrative procedures, the Office of Logistics proposes to discontinue forwarding copies of requisitions to Stations and Bases operating under Type III property accounting procedures for a trial period of four months. Shipping documents containing materiel nomenclature, item costs and other pertinent information will continue to accompany shipments as is the current practice.

2. During the trial period, 1 March through 30 June 1967, Stations and Bases will have the opportunity to observe the effect of this change, i.e., whether their supply procedures are adversely affected or increased communications with Headquarters are necessitated. Comments of this nature are requested by 1 June, or earlier in the event that significant problems are encountered. Beginning 1 July 1967, this change will be made permanent in the absence of generally unfavorable responses.
